Is Life Worth Living?

That depends upon the Liver. If the Liver is inactive the whole system is out of order—the breath is bad, digestion poor, head dull or aching, energy and hopefulness gone, the spirit is depressed, a heavy weight exists after eating, with general despondency and the blues. The Liver is the housekeeper of the health; and a harmless, simple remedy that acts like Nature, does not constipate afterwards or require constant taking, does not interfere with business or pleasure during its use, makes Simmons Liver Regulator a medical perfection.

I have tested its virtues personally, and know that for Dyspepsia, Biliousness and Throbbing Headache, it is the best medicine the world ever saw. Have tried forty other remedies before Simmons Liver Regulator, and none of them gave more than temporary relief, but the Regulator not only relieved but cured.

H. H. JONES, Macon, Ga.

CHINESE SWORDS.

SOME VERY REMARKABLE PRODUCTS OF WONDERFUL SKILL.

Two Bladed Swords That Are Valuable Curiosities—Weapons That Display a High Degree of Workmanship—Terrible Looking Daggers.

Though Dr. Bedloe, the United States consul to Amoy, China, has started back to his post after his leave of absence, yet through the delays incident to the shipping of goods from such far off lands and in getting them through the custom house, some of his most interesting and valuable relics arrived only a few days ago.

In his room at the Bellevue a reporter found the genial consul resting contentedly after his breakfast, as his eye roved contemplatively over a number of the most deadly and awful weapons ever conceived or executed by man. When the doctor said these curiously ugly swords

"I was asked to execute a commission for the Rev. Dr. C. M. Shepherd, the distinguished Nebraska divine, a gentleman, who though a man of peace, has one of the finest, if not the very best, collections of swords and other weapons in the world. This led to my examining several hundred rare and curious weapons sent me for inspection and approval, and these are a few of those I selected. No two are alike, and not one but what displays rare skill and inventive power on the part of the Chinese swordsmith.

"The handsomest of all is a general's saber, about 4 1/2 feet long, slightly Japanese in style, with an edge like a razor and a point that would exert attraction from Colonel Jack Chin, of Louisville. Unlike our own, the thickest part of the blade is the center. This gives great weight to the weapon, joined to the appearance of extreme lightness. The scabbard is made of hard, tough wood, lacquered to represent black iron incrustated with mother-of-pearl. The hilt is of black iron, molded in the form of a full blown rose, the petals of which have been drilled with small holes and these filled with bright brass bars.

"The most curious of the lot to my eye is the so called warrior's two bladed sword from Ho-nan. It is only about two feet long and in the scabbard looks very like the sword bayonet of our own army. The scabbard is plain but very neat and covered with white shagreen or sharkskin and trimmed with brass mountings. When you draw it the blade divides into two, each a facsimile of the other, double edged and spear pointed. The twin blades have a remarkable decoration made by drilling seven holes about an inch and a half apart in a zigzag line from hilt to point. These are filled with pure copper, which is ground down to form a smooth surface flush with the steel and polished to brightness.

"These seven stars, as they are called, are found in nearly all the martial weapons of Ho-nan and are relics of the old astrological faith that still prevails in many parts of China. Its hold is so strong that the copper falls out of one of the sword blades is accepted as a sure precursor of death, and the luckless wielder of the blade usually commits suicide to escape further trouble.

"The short stabbing daggers which find favor chiefly with pirates and revolutionists, form a strong contrast with the weapons described. They are generally so ugly that they would be ludicrous were it not for the purposes to which they are applied. I have one which looks like a queerly made ace of spades fastened to a wire bound handle. To increase the artistic effect of the weapon, the armor has hollowed out a shallow, spoon shaped concavity on either side of the blade and filled it in with blood red lacquer, the effect of which when suddenly drawn from a black sheath is very startling. Spades are not the only suit in the pack that is popular in the Mongolian mind. I have another weapon whose blade is a perfect ace of diamonds.

"Still another dagger is about the clumsiest affair of the kind I ever handled. The blade is a foot long, about three inches wide and half an inch thick. With its heavy brass hilt and gigantic guard it weighs over three pounds. It is used with a long handle it could be used as an ax. It is used chiefly by the Black Flags and other Celestial outlaws, who, in addition to using it in the ordinary manner, throw it with fatal precision.

"The ex-resident of Tonquin told me that during the late war he had known instances in which the knives were thrown with such force that they would go through a man's body and show two inches of bloody steel beyond his back. The handles of many of these instruments of death are finished with what we call pistol grips.

"The most dreadful looking weapon of all was the executioner's sword used by the late headman of Amoy. It is of Manchurian type, being long, almost straight, very heavy and keenly edged. It is used with one hand and is shaped and wound so as to give the executioner a powerful hold upon his weapon. Upon the blade near the hilt are Chinese characters recording the tragic events in which it has taken active part. My interpreter told me that they record no less than 169 human lives which it has taken out of this world. This record enhances its value. A new sword of the same kind could be bought for ten or twelve dollars, but for this sword with its ghastly history the thrifty broker wanted \$200 cash.

"He evidently thought, although it came high, I must have it, and accordingly raised the ante. He was a very heartbroken creature when I returned it with the editorial line so familiar to the spring poet, 'Declined with thanks.' A word of caution as to these oriental swords and daggers. Very many of them are poisoned, so that a mere scratch by sleeping the blade in decayed human blood, and is one of the deadliest known to physiological science."—Philadelphia Times.

F. McRae, Recorder.

PEOPLE'S PARTY PRINCIPLES.

Preamble and Resolutions Adopted at Omaha.

"Assembled upon the one hundred and sixteenth anniversary of the Declaration of Independence, the People's party, invoking the blessing of Almighty God, puts forth in the name of the people of the country the following preamble and declaration of principles: We meet in the midst of a nation brought to the verge of moral, political and material ruin; corruption dominates the ballot box, the Legislature, Congress and even touches the arm of the bench. The people are demoralized. Most of the States have been compelled to isolate voters at the polling places to prevent universal intimidation or bribery. The newspapers are subsidized or muzzled. Public opinion is silenced; business is prostrated; our homes covered with mortgages; labor impoverished; and land concentrated in the hands of capitalists. Urban workmen are denied the right of organization for self protection when imported, pauperized labor beats down their wages. A hired standing army, unrecognized by law, is established to shoot them down, and they are rapidly degenerating into the European condition. The fruits of the toil of millions are boldly stolen to build up colossal fortunes unprecedented in history, and make the possessors of them in turn a menace to the republic and to liberty.

CLASS LEGISLATION.

"From the same prolific womb of governmental injustice we breed two great classes—tramps and millionaires. The national power to create money is appropriated to enrich the bondholders, and the vast public debt payable in legal tender has been funded into gold bearing bonds, thereby adding millions to the burdens of the people. Silver, which has been accepted as coin since the dawn of history, has been demonetized to add to the purchasing power of gold by decreasing the value of all forms of property, as well as of human labor, and the supply of currency is purposely abridged to fatten the usurer, bankrupt enterprises and enslave industry. This vast conspiracy against mankind has been organized on two continents, and it is rapidly taking possession of the world. If not met and overthrown at once it forebodes terrible social convulsions, the destruction of civilization or the establishment of absolute despotism.

FOR POWER AND FLUNDER.

"We have witnessed for more than a quarter of a century the struggles of the two great political parties for power and plunder, while grievous wrongs have been inflicted upon the suffering people. We charge that the controlling influences dominating both of these parties have permitted the existing dreadful conditions to develop without serious efforts to prevent or restrain them. Neither do they now promise any substantial reform. "They agreed together to ignore in the coming campaign every issue but one. They propose to drown the outcries of the plundered people with the uproar of a sham battle over the tariff, so that capitalists, corporations, national banks, rings, trusts, and stock the demonization of silver and the oppressions of usurers may all be lost sight of. "They propose to sacrifice our homes, our lives and our children on the altar of Mammon; to destroy a multitude in order to secure corruption funds from millions.

SEEK TO REFORM THE GOVERNMENT. "A scabbed on the anniversary of the birth of the nation, and filed with the spirit of the grand generation that established our independence, we seek to restore the government of the Republic to the hands of the plain people, with which class it originated.

"We assert our purpose to be identical with the purpose of the National Constitution to form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare and secure the blessings of liberty for ourselves and posterity. "We declare that this republic can only endure as a free government upon the love of the whole people for each other and for the nation; that it cannot be pinned together by the bayonet; that the civil war is over and every passion and resentment which grew out of it must die with it; and that we must be, in fact as we are in name, one united brotherhood of free men.

UNRECORDED CONDITIONS. "Our country finds itself confronted by conditions or which there is no precedent in the history of the world. Our annual agricultural productions amount to billions of dollars in value, which must, within a few weeks or months, be exchanged for billions of dollars of the commodities consumed in their production. The existing currency supply is wholly inadequate to make this exchange, and the results are falling prices, the formation of combines and rings and the impoverishment of the producing class.

"We pledge ourselves, if given the power, to labor to correct these evils by wise and reasonable legislation. "We believe the powers of the Government should be expended, as in the case of the postal service, rapidly and as far as the good sense of the intelligent people and the teachings of experience shall justify, to the end that oppression, injustice and poverty shall eventually cease in the land. "While our sympathies as a party of reform are naturally upon the side of every proposition which will tend to make men intelligent, virtuous and temperate, we nevertheless regard these questions, important as they are, as subordinate to the great issues now pressing for solution, and upon which not only individual prosperity, but the very existence of free institutions depends, and we ask all men to first help us determine whether we are to have the republic to administer before we differ as to the conditions upon which it is to be administered.

DECLARATION OF PRINCIPLES.

"Believing that the forces of reform this day set in motion will never cease to move forward until every wrong is remedied and equal privileges securely established for all men and women we declare therefore:

"First—That the union of labor forces of the United States this day consummated shall be permanent and perpetual; may its spirit enter into all hearts for the salvation of the republic and the uplifting of mankind.

"Second—Wealth belongs to him who created it and every dollar taken from industry without an equivalent is robbery. "If any man will not work, neither shall he eat. The interests of the rural and the city laborer are the same and their enemies are identical.

"Third—We believe the time has come when railroad corporations will either own the people, or the people must own the railroads, and should the Government enter upon the work of holding and managing any or all railroads, we should favor an amendment to the Constitution by which all persons engaged in the Government service shall be placed under civil service regulations of the most rigid character, so as to prevent the increase of power of the national administration by the use of such additional Government employees.

THE FINANCIAL PLAN. We demand a national currency, safe, sound and flexible, issued by the general Government only, a full legal tender for the use of banking institutions, a just equitable, and efficient means of distribution direct to the people at a tax not exceeding 2 per cent. per annum, provided as set forth in the sub-treasury plan of the Farmers Alliance, or some better system; also by means in discharge of its obligations for public improvements.

(A)—We demand free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1.

(B)—We demand that the amount of circulating medium be speedily increased to not less than \$50 per capita.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

We demand a national currency, safe, sound and flexible, issued by the general Government only, a full legal tender for the use of banking institutions, a just equitable, and efficient means of distribution direct to the people at a tax not exceeding 2 per cent. per annum, provided as set forth in the sub-treasury plan of the Farmers Alliance, or some better system; also by means in discharge of its obligations for public improvements.

(A)—We demand free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1.

(B)—We demand that the amount of circulating medium be speedily increased to not less than \$50 per capita.

(C)—We demand a graduated income tax.

(D)—We believe the money of the country should be kept as much as possible in the hands of the people, hence we demand that all State and national revenues shall be limited to necessary expenses of the Government, economically and honestly administered.

(E)—We demand that postal savings banks be established by the Government for the safe deposit of the earnings of the people and to facilitate exchange.

CONTROL OF RAILROADS. Transportation being a means of exchange and a public necessity, the Government should own and operate railroads in the interest of the people.

THE TELEGRAPH AND TELEPHONE. Like the postoffice system, being a necessity for the transportation of news, should be owned and operated by the Government in the interest of the people.

LAND FOR THE PEOPLE. Land, including all the natural sources of wealth, is the heritage of the people, and should not be monopolized for speculative purposes, and alien ownership of land should be prohibited. All land now held by railroads and other corporations in excess of their actual needs and all lands now owned by aliens should be reclaimed by the Government and held for actual settlers only.

IS MARRIAGE A FAILURE? Who shall decide it? We have concluded long ago that it is a success every time with Simmons Liver Regulator in the house. It promotes harmony and good nature by preventing any attack of the worst enemies: indigestion and dyspepsia, which make discord in the brightest home. You will find the Regulator a good remedy for biliousness and sick headache. It is the household friend.

R. P. M. Greeley, a former resident of Reno, came up from California with the G. A. B. boys and spent yesterday circulating among old time acquaintances. He says he hardly knows the town.

Dr. Price's Cream Baking Powder

CONTAINS NEITHER AMMONIA, ALUM OR ANY OTHER INJURIOUS DRUG.

The Wisconsin Dairy and Food Commissioner says

In his Annual report for 1890, on page 82:

"THE NATIONAL DISPENSARY says of Carbonate of Ammonia: 'It is irritant, and if long continued, even in doses which the stomach will tolerate, it impairs nutrition; in doses of five to ten grains it increases the fullness and force of the pulse and causes a sense of lightness in the head. It is one of our most powerful stimulants and certainly should not be used in the preparation of foods.'

On page 85 the report further states: "The result of experiments would indicate that the residues in bread made from Alum Baking Powder, have a decided effect even on a strong and healthy stomach. The weight of testimony is decidedly against the use of ALUM.

The following powders contain either ammonia or alum, or both: Royal, Calumet, Forest City, Pearl, Unrivalled, Echo, Crown, Chicago Yeast, Bon Bon, Star, New Era, Snow Ball, Zipp's Grape Crystal.

FIFTY-CENT COLUMN.

All classes of legitimate advertisements not exceeding six lines, inserted in this column at 50 Cents per Week.

A LADY WITH—

A Baby Complexion.

John Sunderland has a fine stock of French and English goods and is turning out some finely finished suits to order. His tailors are first class workmen.

The Palace Hotel, which is well and favorably known to every old Nevada, is being conducted as usual by that veteran landlord, Al White, who spares neither pains nor purse to provide for the comfort and convenience of guests.

Notice. I have this day engaged Mr. W. J. Thomas, the tinner and plumber, formerly located in the Opera House building, to take charge of my tinning and plumbing shop. He will personally superintend all plumbing, gas fitting and water pipe work, which is a guarantee that it will be done properly. A new force of men will be under him, so that in the future any orders entrusted to me will be promptly attended to. A material reduction will also be made on all plumbing and tinning work. A. H. MANNING.

To my Friends and Former Customers:—I have to-day taken a position as foreman of Mr. A. H. Manning's tinshop and plumbing business, having closed up my shop in the Opera House building. I solicit for Mr. Manning a continuance of patronage in that line, guaranteeing first-class work and satisfaction. j31w

W. I. THOMAS.

Two Nights.

The fine collection of oil paintings now on exhibition at the Opera House Store will be positively sold at auction Wednesday and Thursday evenings July 6 and 7. This is an opportunity seldom offered to secure a genuine work of art at your own price. Call and examine. j32w
